

# ONLINE MUSICAL INSTRUMENTS STORE

Date: 31-08-2022

Guide: AMAL K JOSE

## 1. Project Overview?

Online musical instruments store is a web-based application where users can view various musical instruments along with their description. Users can have a brief look at the instruments without actually visiting the store. This website focuses on a particular store, and it displays different kinds of instruments of different brands so users can explore instruments available. Interested product can be added to wish list, cart and able to order them online. After purchasing the order bill will be generated for customer. They can give feedback for the product through this site.
